

EASY LAB

DATA SHEET

SKATEWAX MARBLE AND TERRACOTTA 0007 COLORLESS

It gives a unique finish.

This creamy paste wax gives a quality finish, it is very thick, and fills all the little imperfections without changing the surface of the support while giving it a beautiful sheen and the luster of old floors.

INSTRUCTIONS FOR USE

On a perfectly clean and dry floor, treated or not, use a broad quality brush to apply one or two even layers of wax. Gloss between each application with a tampico brush or with a polishing machine.

The anti-skid treatment of this wax reduces risks of sliding but does not eliminate it completely.

For maintenance, the floor can be mopped with slightly soapy water. When the floor is dry, another layer of wax can be applied or use our liquid wax 0723.

Cleaning of tools: White Spirit.

COVERAGE

8-15sq.m per liter for the first layer depending on the porosity of the floor, and 12-18sq.m per liter for subsequent layers.

Packing: 1l - 5 l - 30 l.

SAFETY WARNING :

- FLAMMABLE
- Work in a well ventilated room
- Imperative to wear rubber gloves
- Do not swallow
- Do not leave within reach of children.
