

## TECHNICAL DATASHEET

# OIL FOR CHALETS 07701 & 7701 MATT & 07701 MATT ANTI UV COLORLESS OUTSIDE & INSIDE

This is a combination of natural modified urethane oils. This special oil penetrates strongly and acts as a water repellent agent.

- 07001: colorless, satiny
- 07701 matt: colorless
- 07701 matt anti UV: colorless, this oil gives maximum protection; it is recommended for wood outside which have been aged with aging agents for chalets.

### APPLICATION

On a clean and dry base exempt of all finish.

Moderate temperature but never in the sun.

It should be applied with a brush in two coats (for the most exposed parts three coats should be applied).

For hard woods: dilute the 1st coat with 15% White Spirit.

**QUANTITIES ON AVERAGE:** 8-10 m<sup>2</sup>/Liter

**STORAGE:** remains should always be transferred to a smaller container adapted to the remaining quantity.

**PACKAGING:** 1 L – 5 L – 30 L

### Security

- ✚ Please read the security instructions carefully
- ✚ Work in a well ventilated room
- ✚ Wear rubber gloves
- ✚ Do not swallow
- ✚ Keep it away from the access of children
